Leroy Snow, son of Homer Kennedy and Belle Windisch, was born October 13, 1897, and departed this life March 10, 1916, aged eighteen years, four months and twenty-seven days.

Roy was a good and obedient boy faithful in all his duties and upright in his dealings. At a very early age he was adopted by his grandparents, Mr. and Mrs. John Snow, with whom he has always made his home and to whom he was as dear as any of their own children. His cheerful presence will be sadly missed by the family and by those whom he associated with.

He passed the Patterson Examination in June, 1913. He met with his death accidentally while working as a saw mill hand near his home. Although very badly hurt he bore up heroically to the last. He passed away about twelve hours after being hurt.

He leaves to mourn their loss a mother and stepfather, two grandparents, three sisters, one brother, one uncle and three aunts together with many friends and associates. Services were held at Inlet Christian church March 13th conducted by Rev. John Hoag of Tedrow.

OUR BOY HAS GONE

Consider the lilies, and their fragrance rare,
They neither toil nor spin,
And yet God gives them beauty far
Beyond the fairest of men.

A young life, touched by the masters hand
Its beauty who can tell?
The often hidden to mortal eyes,
Like the violet in the dell.

Roy has gone, we shall miss him,
And his footsteps we'll hear not again
But the fragrance of the life he lived
Forever with us will remain.

NATIONAL BABY WEEK

IN WAUSEON

(Continued from page one)

The way to conserve the health of the babies and children to increase the efficiency and effectiveness of our school and to make the community healthier, happier and more prosperous was made clear.

We note with satisfaction that the speakers from away were all first class in their respective lines and that our local talent who contributed to the program did not suffer by comparison. But what will be the result?

Will the people who have put forth the effort to make the program the success it was and the people who enjoy it and profited by it be content to let it stand as a completed event to be credited to the town as a successful achievement, or shall we as a community make it the starting point for a new order of things in Wauseon? Shall we co-operate to follow up the suggestions that were made and secure a supervising and visiting nurse, take measures to see that all our children have a fair chance to secure a good education, or shall we conclude that we can't afford to go further in this matter which will call for the expenditure of some time, energy and money, but which will undoubtedly be of invaluable benefit to the community?

The answer is up to the people of Wauseon.

ONE VIEW OF THE SITUATION

In marked contrast with the view of the present international situation which has been promulgated by the big daily papers of the country is the following, which has been issued by the Press Bureau of the Ohio Republican Land Owner's League:

Mr. J. B. Reynolds, a close observer of events at Washington gives the inside history of our disgraceful international tangle.

President Wilson proclaimed a great victory over German diplomacy in the Lusitania case. When he learned that Germany absolutely refused to disavow the sinking of that ship, in a desperate effort to save his face before the world he instructed Secretary Lansing to assure Germany that if she would yield on that point the United States would use its influence with the allies to secure such a change in international law as would deprive merchant vessels, armed solely for self defense, of their rights and privileges as merchant ships and that our government would acquiesce in such a war.

Secretary Lansing was deceived by blundering egotism, inexperience and vaulting ambition.

Under the rules there was no opportunity for debate. Under our Constitution the President, not Congress, is entrusted with the conduct of diplomatic affairs. There was but one thing to do, table the resolutions. This was done and again the great victory of the President was heralded to the world, and he was credited with keeping our country out of war with Germany. What has really kept us out of war with Germany has not been her diplomacy and the firm conviction of her Government and our people that there is no cause for war, and the stern determination on the part of both not to be led into it by blundering egotism, inexperience and vaulting ambition.
